As a PE Department we are really looking forward to working with the students at Seva School. We have visited the school this term and it is clear that many of the students have a keen interest in PE and we are working hard to try and plan a broad and engaging curriculum for next year.

Secondary PE lessons will continue to be at local off-site provisions until our new sports facilities are built. These will include the AT7, Alan Higgs Sports Centre and University of Warwick.

We wanted to communicate our expectations to students and parents for PE lessons and enrichment activities for the next academic year.
